BOND 2007

Election Day
May 12

IMPACT TO THE LEE AREA

Jackson-Keller Elementary School Classroom addition:

Construct 2-story classroom addition with 29 classrooms and teacher support areas.

Lee High School Athletic Facility renovation and upgrade:

Construction of a lobby and concession stand area, replacement of existing competition gym windows with a translucent window system, refinishing existing wood flooring system and replacement of bleacher seats, removal of existing guardrail and installation of a glass guardrail system, interior painting, lighting replacement and replacement of selected sports equipment.

Lee High School Basse-McCullough Athletic Field:

Add sports lighting to the existing baseball, softball and soccer fields and expand the existing bleacher seating capacity at all three field areas. These fields will serve Lee's athletic teams, but all high schools will use the upgraded fields.

District-wide sports facility:

Will include a combined football/soccer stadium with seating capacity for 10,000; will include an 8-lane track, parking for 2,500 and related infrastructure. Proposed bond also includes design costs for a baseball stadium.

Roof replacement at Nimitz Middle School and Lee High School.

All elementary, middle and high schools will receive:

- HVAC systems in their gyms (air-conditioning).
- Instructional technology (such as classroom computers, teacher laptops, distance learning equipment, projectors, graphing calculators) and related technology infrastructure (security cameras for all elementary and middle schools, additional security cameras at all high schools, networking upgrades and software).

Colonial Hills, Dellview, Jackson-Keller, Ridgeview and West Ave. elementary schools will have their metal gyms replaced with masonry gyms to facilitate the air-conditioning mentioned above.

Air-conditioned kitchens at Ridgeview, Dellview, West Avenue, Olmos, Colonial Hills and Castle Hills elementary schools.

Purchase 130 new buses for use district-wide.
